## Introduction

Since the Citizenship Branch first published this booklet, it has proven to be a very valuable resource guide to teachers, administrators and others working in the field of immigrant services.

The classes listed in this Directory are those with which the Branch has had contact during the 1976-77 school year.

While we have tried to ensure the accuracy of these listings, we are aware that there may be a need for additions, corrections and deletions. Any comments or further information you may have on the contents of this booklet should be forwarded to:

## MIGRANT AND IMMIGRANT AID SERVICES

Editor's Note: We are aware that we have probably missed a number of organizations which should have been listed. Any assistance which users could give in making the list more complete next year would be greatly appreciated.

In this listing we have included general services in each area and where we are aware of them, we have also included organizations which assist particular ethno-cultural groups.

For Canada Manpower Centre, check in the telephone director under:

Governments — Canada — Manpower & Immigration  
Canada Manpower Centres.

In many areas the main immigrant aid agency is the community information centre. These centres are listed in another section of this Directory.

The Northern Affairs offices of the Ministry of Northern Affairs offer information and assistance throughout northern Ontario. These offices are listed in a separate section in this book.

You can also check with the local Social Planning Council for listings of immigrant aid and ethno-cultural groups.
